C’ÉTAIT ÉCRIT — Prompts images v0.7

Version complète : 102 images, chaque bloc est autonome et prêt à coller dans Gemini.

Mode d’emploi

1. Une génération = un bloc. Copie le texte du cadre doré (du « Style: » jusqu’à « Avoid: ») dans Gemini, sans rien ajouter.

2. Règle le format indiqué dans l’en-tête du bloc (ratio) ; toutes les cartes sont en 63:60 ≈ 1:1, sauf les Héros en 63:85 ≈ 3:4.

3. Chaque bloc contient déjà : style commun, mise en page des cases, description du personnage quand il y en a un, scène, cadre, interdits.

4. Le cadre (avant-dernière phrase, « Frame: … ») est optionnel : supprime cette phrase si tu habilles toi-même les cartes dans la mise en page.

5. Pour copier sans retours à la ligne parasites, utilise le fichier prompts_images_v0_7_complet.txt (un prompt par ligne).

Ce que j’ai complété par rapport au CSV

• Le style commun (français dans le CSV) est traduit en anglais et placé au début de chaque bloc.

• Les interdits du CSV sont ajoutés en fin de bloc (« Avoid: … »).

• Les 21 prompts Action (AC-HRn-…) ne décrivaient pas le héros : sa description est reprise de la fiche HR correspondante, pour que le personnage reste identique d’une image à l’autre. Idem pour HC1 (Chikito) et HC7 (Pigeon Bâtard).

• « rouge / vert / bleu accent colour » est passé en anglais ; la planche LG1, écrite en français, est réécrite en anglais.

• Les images « Dossier Gérard » et « Procès-verbal » ont une ligne d’exception, car le CSV leur demande un trait réaliste/une trame noir et blanc alors que le style commun l’interdit.

• Les ratios 63:xx du CSV ont été convertis en format Gemini (1:1 ou 3:4) ; la planche LG1 n’avait pas de ratio, 4:3 est proposé.
