# C’ÉTAIT ÉCRIT — Prompts images v0.7

**Version Gemini détaillée : fiches personnages + un prompt par case**

## Pourquoi cette version

Gemini confond les personnages et fait des défauts quand on lui demande une planche à 2 ou 3 cases en un seul prompt, avec des personnages décrits en une demi-phrase. Cette version corrige les trois causes :

1. Chaque personnage a une fiche d’identité complète (silhouette, tenue, couleur signature, accessoire, ce qu’il n’est PAS), répétée dans chaque prompt où il apparaît.

2. Chaque personnage a une image de référence à générer une fois (Étape 0) puis à joindre à chaque prompt.

3. Chaque case est un prompt séparé (une image = une case), avec cadrage, zone de sécurité, interdits renforcés et liste de contrôle. Tu assembles ensuite les cases au bon ratio.

## Mode d’emploi (dans l’ordre)

ÉTAPE 0. Génère les 19 fiches de référence (section « Étape 0 »). Garde la meilleure image de chaque personnage. Si un personnage est raté, régénère jusqu’à ce qu’il soit exact : tout le reste en dépend.

ÉTAPE 1. Pour chaque case : ouvre une NOUVELLE conversation Gemini, joins la ou les fiches indiquées sur la ligne « Références », règle le ratio indiqué, colle le prompt complet.

ÉTAPE 2. Contrôle avec la liste ci-dessous. Au moindre défaut : régénère, ne retouche pas par message (les corrections en chaîne dégradent l’identité).

ÉTAPE 3. Rogne au « Format final » indiqué, assemble les cases, puis ajoute le cadre, les ✓ / ✗, les icônes miroir et la pastille de fréquence (volontairement absents des prompts).

## Liste de contrôle après chaque génération

☐ Aucun texte, aucune lettre, aucun chiffre (surtout dans les bulles et sur les cartes).
☐ Seuls les personnages prévus sont présents, chacun avec sa tenue et sa couleur signature.
☐ Pas de dégradé, d’ombre douce, de halo lumineux ni de texture (aplats uniquement).
☐ Mains simples, pas de doigts en trop, pas de pouce levé / OK / V / doigts croisés.
☐ Pas de cadre ni de bordure dessinés par Gemini ; le sujet reste dans la zone de sécurité.
☐ Le point focal se lit en 3 secondes, même en noir et blanc.

## Si ça rate

Personnages mélangés : vérifie que la bonne fiche est jointe, et qu’une seule fiche est jointe si un seul personnage apparaît.

Du texte apparaît : régénère (ne pas écrire « sans texte » en plus, le prompt le dit déjà).

Case trop chargée : régénère ; si ça persiste, supprime un élément de la ligne SCENE (jamais les lignes de style).

Ratio non respecté : Gemini ne propose que certains ratios ; le prompt demande donc le plus proche (16:9, 21:9, 1:1) et tu rognes ensuite.

# Bible visuelle : à valider avant de lancer

Le CSV décrit chaque héros en une phrase. Pour éviter les confusions, j'ai ajouté une couleur signature et des repères propres à chacun. Ce sont mes propositions : si tu veux changer une couleur ou un détail, dis-le maintenant, avant de générer les fiches.

| Personnage | Couleur signature / repère |
|---|---|
| PEKU | bleu royal |
| MOPIZO ALAFESSE | rouge |
| PILOLI | crème et rose |
| PIGEON BÂTARD | gris-bleu |
| CHIKITO | vert |
| ZAKU LIKUZA | violet et or |
| MUCHAKE | gris, cape rouge |
| ANONYMOUS HERO | tunique crème, ceinture or |
| THE VILLAIN | cape prune |
| THE OLD SAGE | robe bleue, barbe blanche |
| THE SHADY MERCHANT | gilet brun, écharpe jaune |
| THE RIVAL | écharpe rouge |
| THE OLD MENTOR | manteau gris |
| THE WRITER | robe crème à capuche, plume or |
| GÉRARD | lunettes rondes, cardigan gris |
| BERNARD | barbe grise, tasse blanche |
| RÉMI | cheveux bouclés, chemise rouge |
| LOU | carré noir, sacoche |
| THE AUDITOR | tailleur sombre, chignon |

## Ce qui a changé par rapport au CSV

• Toutes les couleurs signatures, les héros anonymes (H, H2, H3) et les personnages secondaires (Méchant, Sage, Marchand, Rival, Mentor, Écrivain) sont ajoutés : le CSV disait seulement « a hero », « a villain ».

• Gérard, Bernard, Rémi, Lou et l'Auditrice ont un visage fixe et deux tenues (bureau et 1872).

• Cadres, ✓ / ✗, icônes miroir et pastille de fréquence ne sont plus demandés à Gemini (source de défauts) : ils sont listés dans « Assemblage » sous chaque case.

• Remplacés parce que Gemini les transforme en lettres ou en spirales : les « Z z z » du sommeil (RB04) deviennent des bulles, le tourbillon de la chasse d'eau (HC2) devient une colonne de lumière, la bulle « ? » (GN03) reste vide.

• La planche LG1 est une proposition de contenu (le CSV ne détaille pas ses cellules) : à vérifier.

• Les hexadécimaux des couleurs sont ajoutés pour stabiliser la palette.

# Étape 0 — Fiches de référence (19)

À générer en premier. Garde l’image obtenue pour chaque personnage : tu la joindras à tous les prompts où il apparaît.

Case 1/1 · Références à joindre : Fiche MOPIZO ALAFESSE · Format final : 63:60 ou 31:30 (≈1:1) Assemblage (rien à coller) : Action : rond avec forme et mini-portrait, cycle en trois cases reliées par des flèches (ajoutées à l'assemblage). Accent vert.

REFERENCE: if reference image(s) are attached, they show the exact design of MOPIZO ALAFESSE. Copy each face, body proportions, outfit and colours EXACTLY, do not redesign. If nothing is attached, follow the written descriptions below literally.
TASK: create ONE single standalone illustration, aspect ratio 1:1. It is NOT a comic page: no panel borders, no frame, no multiple panels, no caption.
STYLE LOCK: comic manga-style cartoon in FLAT colour. Thick outline of constant width in midnight blue (#14213d). Flat colour fills only, 6 to 8 flat colours in total. NO gradients, NO shading, NO texture, NO gloss, NO soft glow, NO 3D look, NO photo-realism. Big heads, large expressive eyes, very simple mitten-like hands (fist, open palm or one pointing finger; never detailed fingers). Palette: midnight blue (#14213d), gold (#d4a017), cream (#fbf1d4); accents red (#d62828), green (#2a9d4a), blue (#2a6fdb), yellow (#f2c80f), purple (#6b3fa0). Plain flat background or one very simple screentone. One single focal point, 3 main elements maximum, no detail smaller than 1.5 mm at card size.
CHARACTERS: the image contains exactly 1 named character(s), no one else except plain generic silhouettes explicitly mentioned in the scene.
- MOPIZO ALAFESSE: a very polite executioner with a stocky body. ONE HUGE muscular right arm, twice the size of the normal left arm. In the huge hand, a SMALL AXE (short wooden handle, small silver head); the axe always stays small. Gentle courteous smile and a slight polite bow of the head. Outfit: deep RED sleeveless tunic, cream shirt on the normal arm, black belt with a small folded black hood tucked at the hip (the hood is never worn). Short neat black hair, tiny pencil moustache. Signature colour: RED. He has NO hat and is not tall and thin.
SCENE: A SHOULDERS-UP PORTRAIT of Mopizo with a determined face (eyebrows lowered, firm mouth), occupying the left 60% of the image and looking toward the right. On the right 40%, a large round medallion with a thick outline showing a round SHIELD with a star inside a round medallion filled GREEN. Medallion and icon are the only accent colour (VERT). Plain midnight-blue background.
COMPOSITION: Keep the main subject inside the central 80% of the image (edges may be trimmed). One single focal point, flat uncluttered background, clear empty space around the subject, nothing touching the edges except the background.
STRICT NEGATIVES: NO text of any kind (no letters, numbers, words, captions, writing inside bubbles, sound-effect lettering, labels, signs with writing), NO logo, NO signature, NO watermark. NO frame, NO border, NO panel borders, NO film perforations, NO page layout: the picture fills the whole canvas edge to edge. NO thumbs-up, NO OK sign, NO V sign, NO crossed fingers. NO tick mark and NO cross mark as status symbols (a crossed-out object is allowed only when the scene explicitly asks for it). NO extra, missing, merged or duplicated limbs, heads or characters. NO character other than those listed in CHARACTERS. NO resemblance to any existing franchise or character: no thrown weapons, no spiky bright-yellow hair, no orange outfit, no spiral or swirl patterns. NO gradients, NO glow, NO realistic rendering (except where the style lock says realistic).
QUALITY CHECK before answering: exactly the listed characters, each with the exact outfit and signature colour given above; simple hands; every outline closed and clean; no text anywhere; background not busy; the focal point is readable in 3 seconds even in black and white.

Plain midnight-blue background.
COMPOSITION: Keep the main subject inside the central 80% of the image (edges may be trimmed). One single focal point, flat uncluttered background, clear empty space around the subject, nothing touching the edges except the background.
STRICT NEGATIVES: NO text of any kind (no letters, numbers, words, captions, writing inside bubbles, sound-effect lettering, labels, signs with writing), NO logo, NO signature, NO watermark. NO frame, NO border, NO panel borders, NO film perforations, NO page layout: the picture fills the whole canvas edge to edge. NO thumbs-up, NO OK sign, NO V sign, NO crossed fingers. NO tick mark and NO cross mark as status symbols (a crossed-out object is allowed only when the scene explicitly asks for it). NO extra, missing, merged or duplicated limbs, heads or characters. NO character other than those listed in CHARACTERS. NO resemblance to any existing franchise or character: no thrown weapons, no spiky bright-yellow hair, no orange outfit, no spiral or swirl patterns. NO gradients, NO glow, NO realistic rendering (except where the style lock says realistic).

REFERENCE: if reference image(s) are attached, they show the exact design of ANONYMOUS HERO. Copy each face, body proportions, outfit and colours EXACTLY, do not redesign. If nothing is attached, follow the written descriptions below literally.
TASK: create ONE single standalone illustration, aspect ratio 1:1. It is NOT a comic page: no panel borders, no frame, no multiple panels, no caption.
STYLE LOCK: comic manga-style cartoon in FLAT colour. Thick outline of constant width in midnight blue (#14213d). Flat colour fills only, 6 to 8 flat colours in total. NO gradients, NO shading, NO texture, NO gloss, NO soft glow, NO 3D look, NO photo-realism. Big heads, large expressive eyes, very simple mitten-like hands (fist, open palm or one pointing finger; never detailed fingers). Palette: midnight blue (#14213d), gold (#d4a017), cream (#fbf1d4); accents red (#d62828), green (#2a9d4a), blue (#2a6fdb), yellow (#f2c80f), purple (#6b3fa0). Plain flat background or one very simple screentone. One single focal point, 3 main elements maximum, no detail smaller than 1.5 mm at card size.
CHARACTERS: the image contains exactly 1 named character(s), no one else except plain generic silhouettes explicitly mentioned in the scene.
- ANONYMOUS HERO: a stand-in pawn hero: medium height, plain round head, short dark-blue hair cap, simple dot eyes, cream tunic with a gold sash, midnight-blue trousers, no accessories, no animal or magical features. He must NOT resemble Peku, Mopizo, Piloli, Pigeon Bâtard, Chikito, Zaku or Muchake.
SCENE: A cream stone brick wall with a hidden passage: one wall panel pushed in to reveal a dark rectangular doorway. The ANONYMOUS HERO tiptoes through it, looking back over his shoulder. A few steps ahead on the ground, a flat gold five-point star on a disc marks the next pawn, with exactly four small footprints leading to it.
COMPOSITION: Keep the main subject inside the central 80% of the image (edges may be trimmed). One single focal point, flat uncluttered background, clear empty space around the subject, nothing touching the edges except the background.
STRICT NEGATIVES: NO text of any kind (no letters, numbers, words, captions, writing inside bubbles, sound-effect lettering, labels, signs with writing), NO logo, NO signature, NO watermark. NO frame, NO border, NO panel borders, NO film perforations, NO page layout: the picture fills the whole canvas edge to edge. NO thumbs-up, NO OK sign, NO V sign, NO crossed fingers. NO tick mark and NO cross mark as status symbols (a crossed-out object is allowed only when the scene explicitly asks for it). NO extra, missing, merged or duplicated limbs, heads or characters. NO character other than those listed in CHARACTERS. NO resemblance to any existing franchise or character: no thrown weapons, no spiky bright-yellow hair, no orange outfit, no spiral or swirl patterns. NO gradients, NO glow, NO realistic rendering (except where the style lock says realistic).
QUALITY CHECK before answering: exactly the listed characters, each with the exact outfit and signature colour given above; simple hands; every outline closed and clean; no text anywhere; background not busy; the focal point is readable in 3 seconds even in black and white.

REFERENCE: if reference image(s) are attached, they show the exact design of ANONYMOUS HERO, ANONYMOUS HERO 2. Copy each face, body proportions, outfit and colours EXACTLY, do not redesign. If nothing is attached, follow the written descriptions below literally.
TASK: create ONE single standalone illustration, aspect ratio 21:9. It is NOT a comic page: no panel borders, no frame, no multiple panels, no caption.
STYLE LOCK: comic manga-style cartoon in FLAT colour. Thick outline of constant width in midnight blue (#14213d). Flat colour fills only, 6 to 8 flat colours in total. NO gradients, NO shading, NO texture, NO gloss, NO soft glow, NO 3D look, NO photo-realism. Big heads, large expressive eyes, very simple mitten-like hands (fist, open palm or one pointing finger; never detailed fingers). Palette: midnight blue (#14213d), gold (#d4a017), cream (#fbf1d4); accents red (#d62828), green (#2a9d4a), blue (#2a6fdb), yellow (#f2c80f), purple (#6b3fa0). Plain flat background or one very simple screentone. One single focal point, 3 main elements maximum, no detail smaller than 1.5 mm at card size.
CHARACTERS: the image contains exactly 2 named character(s), no one else except plain generic silhouettes explicitly mentioned in the scene. Do NOT mix features between characters: each keeps only his or her own outfit, colours and props.
- ANONYMOUS HERO: a stand-in pawn hero: medium height, plain round head, short dark-blue hair cap, simple dot eyes, cream tunic with a gold sash, midnight-blue trousers, no accessories, no animal or magical features. He must NOT resemble Peku, Mopizo, Piloli, Pigeon Bâtard, Chikito, Zaku or Muchake.
- ANONYMOUS HERO 2: same design as the anonymous hero but with short red-brown hair and a GREEN sash.
SCENE: CONSEQUENCE: the ANONYMOUS HERO and ANONYMOUS HERO 2 have swapped places; pale dashed ghost silhouettes remain at their former positions, two curved arrows between. Plain midnight-blue background.
COMPOSITION: The image will be cropped into a VERY wide strip: keep ALL important elements inside the central horizontal 55% band. One single focal point, flat uncluttered background, clear empty space around the subject, nothing touching the edges except the background.
STRICT NEGATIVES: NO text of any kind (no letters, numbers, words, captions, writing inside bubbles, sound-effect lettering, labels, signs with writing), NO logo, NO signature, NO watermark. NO frame, NO border, NO panel borders, NO film perforations, NO page layout: the picture fills the whole canvas edge to edge. NO thumbs-up, NO OK sign, NO V sign, NO crossed fingers. NO tick mark and NO cross mark as status symbols (a crossed-out object is allowed only when the scene explicitly asks for it). NO extra, missing, merged or duplicated limbs, heads or characters. NO character other than those listed in CHARACTERS. NO resemblance to any existing franchise or character: no thrown weapons, no spiky bright-yellow hair, no orange outfit, no spiral or swirl patterns. NO gradients, NO glow, NO realistic rendering (except where the style lock says realistic).
QUALITY CHECK before answering: exactly the listed characters, each with the exact outfit and signature colour given above; simple hands; every outline closed and clean; no text anywhere; background not busy; the focal point is readable in 3 seconds even in black and white.
